Twin City Cannabis

90-Day Marketing Plan

Strategy, positioning, channels, and a week-by-week playbook for becoming the cannabis price comparison site for Minnesota.

Twin City Cannabis
Minneapolis · Saint Paul · MN

Confidential
Revised April 9, 2026

1 The Honest Situation

What we've built (shipped & live)

✓ Product data	**35 dispensaries, 1,500+ products**, real Google ratings & reviews, updated 5×/day via automated scraper
✓ SEO build	**204 indexed pages** submitted to Google Search Console & Bing Webmaster Tools — dispensary pages, brand pages, city pages, neighborhood pages, per-product comparison pages, long-tail guides (cheapest, best-rated, MN cannabis laws)
✓ Schema.org	CannabisStore, Product, AggregateOffer, Brand, Article, BreadcrumbList, FAQPage — rich snippets enabled for every page type
✓ Paid tiers	**$299/mo Featured, $599/mo Premium** — Cloudflare Worker deployed, Stripe webhook handler ready, frontend badge system wired
✓ Live counter	"X people comparing prices now" — real visitor tracking via Cloudflare KV + modest baseline, live on homepage
✓ Legal pages	Terms of Use, Privacy Policy, Contact — all live with real content
✓ Age gate	21+ verification modal on first visit, branded, SEO-safe
✓ Email capture	Kit forms (consumer price alerts + dispensary inquiries), branded HTML email template, verified sender hello@twincitycannabis.com
✓ Analytics	GA4 + Meta Pixel + Schema.org SEO — all wired
✓ Performance	Lighthouse: SEO 100, Best Practices 100, Accessibility 94, Desktop 95
○ Kit sequences	Welcome email flows drafted but not yet live in Kit (manual setup remaining)
○ Stripe products	Worker deployed, user needs to create Stripe products + payment links to activate billing

What we don't have yet

- Traffic — SEO pages were just submitted, rankings haven't developed
- Brand recognition in the Twin Cities market
- Relationships with dispensary owners
- Revenue
- A meaningful marketing budget

The market

- **Minnesota legalized August 2023.** Retail just ramped in 2024-2025.
- ~35 retail dispensaries in the metro today; ~150 statewide projected by end of 2026
- **No dominant local price-comparison player.** Only competitor (MN Cannabis Hub) is editorial, not interactive.
- Massive consumer confusion — legal cannabis is brand new, people don't know what to buy or where
- Dispensaries are spending zero on marketing and have no competitive intel

THE KEY INSIGHT

Best possible market timing. Early in a new legal market, defensible product, dense and price-sensitive metro, no competition. The window to become "the cannabis price site for Minnesota" is open now and closes in 18-24 months. Speed is the moat.

2 Strategic Positioning

The one sentence

Twin City Cannabis is the only place that shows real prices side-by-side across every Minneapolis-Saint Paul dispensary, updated daily, free for shoppers.

Why this wins

PHRASE	WHAT IT DOES
"Real prices"	Distinguishes from review sites and dispensary ads
"Side-by-side"	Single-screen comparison is the actual shopper need
"Every dispensary"	Comprehensive — we don't play favorites
"Updated daily"	Fresh data is the moat (actually 5×/day)
"Free for shoppers"	Trust signal, removes friction
Doesn't say "best"	We don't editorialize; the data does

Three audiences, three messages

AUDIENCE	WHAT THEY NEED	OUR MESSAGE
Shoppers	Save money, avoid bad shops	"Compare every dispensary in 30 seconds. No guessing."
Dispensaries	Visibility, customer intel	"Your customers are price-checking right now. Are you winning?"
Press / industry	A unique data angle	"The first independent price tracker for the new MN cannabis market"

What we stand against

- **Sponsored placement disguised as recommendations** — Weedmaps is famous for this
- **Pay-to-rank** — our TCC Score is never influenced by tier
- **Fake reviews** — we pull real Google reviews
- **Stale data** — we update 5×/day
- **Walled gardens** — every dispensary listed for free

3 Channels That Actually Work

Tier A · Do these first

A1 · SEO Content Engine

Status: already running. 204 indexed pages, self-rebuilding 5×/day via cron. This is the moat. No competitor has anything close.

Action: one new long-tail page per week

- "Cheapest [category] in Minneapolis this week" (auto-generated weekly snapshot)
- "First time at a dispensary — what to expect"
- "How to read a Minnesota cannabis label"
- "What's the difference between live resin and live rosin?"
- "Cannabis delivery in Minneapolis (which dispensaries do it)"
- "Best dispensary near [neighborhood]" — one per major neighborhood
- "Minnesota cannabis news roundup [Month Year]"

CMO role: generate content topics from search trends; write 1-2 pieces/month for voice variety.

A2 · Reddit r/MNTrees + r/twincities

Free, immediate, biggest growth lever for the next 90 days. r/MNTrees has 30K+ active members — **the** MN cannabis community. They love data, hate corporate marketing, trust independent voices.

Action

- Start as a member, not a marketer. Answer real questions using TCC data.
- Every Sunday: "Twin Cities Weekly Price Drop" thread — top 5 deals, cite dispensaries.
- Monthly AMA: "Ask me anything about Twin Cities cannabis prices."
- Build genuine reputation. The mods will protect us if we're useful.

CMO role: tone-check posts, help craft the AMA narrative, engage in comments.

A3 · Outbound to Dispensary Owners

The direct path to revenue. Cold email every TC dispensary owner with a personalized pitch based on our data.

Action

- Identify dispensaries with worst pricing visibility (high prices, low reviews, no website)
- Personalized email: "I built a tool that compares your menu to every competitor. Here's what I see: [3 specific facts]. Free Featured trial, 30 days."
- Non-extractive: free listing forever, paid adds visibility not rank, no contracts
- **Target: 5 paid dispensaries in 90 days = $1,495-$2,995 MRR**

CMO role: write the master template, polish outbound voice, warm intros if possible.

Tier B · Do these next

B1 · Local Press & Earned Media

Star Tribune, MinnPost, Bring Me The News, MSP Magazine. Cannabis is a hot local beat. Offer to be "the neutral data source" for any cannabis story.

Goal: 1 mention per quarter. CMO friend owns this entirely.

B2 · Micro-Influencers

Minnesota cannabis creators with 1K-10K followers. DM 20, convert 3-5 to organic collabs via free data access + cross-promo. Hashtags: #mncannabis, #mnweed, #twincitiescannabis.

B3 · Email Newsletter

Kit forms are wired, welcome sequences are drafted. Once live: weekly "Twin Cities Cannabis Weekly" — deals, openings, insights. **Goal: 500 subscribers by day 90, 2,500 by day 180.**

Tier C · Worth doing eventually

C1 · Paid Ads

Cannabis ads restricted on Meta/Google. Skip until $500+/month to test. Reddit may be a sleeper channel.

C2 · SEO Backlink Outreach

5 outreach emails/week to local directories, neighborhood blogs, business journals. ~50 backlinks/year, compounds heavily.

C3 · Events

After 6 months with name recognition: 4/20 events, dispensary openings, MN Cannabis Expo.

4 The 90-Day Playbook

Days 1-30 · Foundation + first traffic

Week 1

SEO build shipped. Finish Kit welcome sequences (the unblock). Claim @twincitycannabis on Instagram + TikTok. CMO onboarding: walk through everything, agree on roles + cadence.

Week 2

First Reddit post in r/MNTrees with 5 specific price examples and TCC link. Be transparent. Cold outbound batch 1: 10 dispensaries. Publish one new long-tail content page.

Week 3

First press pitch with real data angle. Cold outbound batch 2: 10 more. One new content page. Identify 5 micro-influencers, send intro DMs.

Week 4

First newsletter to all signups. Cold outbound batch 3: 10 more. One new content page. Second Reddit post (different angle).

DAY 30 MILESTONES

- ✓ ~30 dispensaries cold-emailed, ~3 in conversation
- ✓ 50-200 daily visitors
- ✓ ~25-100 email signups
- ✓ Maybe 1 paid Featured customer = $299 MRR

Days 31-60 · First revenue + brand building

Weeks 5-6

Land first paying dispensary.

White-glove onboarding. Use the win as a case study. Continue weekly Reddit cadence + content page.

Weeks 7-8

Press hit #1 — even small. Use in all subsequent outreach. Backlink outreach: 5/week. 2nd and 3rd paying dispensary target.

DAY 60 MILESTONES

- ✓ 3 paying dispensaries = $897 MRR
- ✓ 200-500 daily visitors
- ✓ 200-500 email subscribers
- ✓ First press mention
- ✓ Recognized name in r/MNTrees

Days 61-90 · Scale + repeat what's working

Weeks 9-10

Double down on whichever channel produces best ROI. If outbound: hire part-time VA for 30 emails/week. If SEO: ramp to 2 content pages/week. If Reddit: become the trusted authority.

Weeks 11-12

Launch
TCC Score V2:

publish "Top 10 Twin Cities Dispensaries" with methodology. Viral potential — dispensaries share rank (good or bad = traffic). Pitch as press story.

DAY 90 MILESTONES

- ✓ 5+ paying dispensaries = ~$1,495-$2,995 MRR
- ✓ 1,000+ daily visitors
- ✓ 1,000+ email subscribers
- ✓ 2-3 press mentions
- ✓ Top-3 Google result for "twin cities cannabis prices"

5 KPIs That Matter

METRIC	DAY 30	DAY 60	DAY 90	DAY 180
Daily site visitors	200	500	1,000	5,000
Email subscribers	100	300	1,000	5,000
Paying dispensaries	1	3	5	15
MRR	**$299**	**$897**	**$1,495**	**$4,485**
Top-10 Google rankings	5	25	75	200
Press mentions (cumulative)	0	1	3	8

6 The Revenue Math

Unit economics

- $299/mo × 12 = **$3,588/year per Featured customer**
- ~85% annual retention → **lifetime value ~$11,960**
- CAC on cold outbound = ~$0-100 (your time)
- **Margin: $11,860 lifetime per customer.**

CUSTOMERS	MONTHLY RECURRING	ANNUAL RECURRING	WHAT IT LOOKS LIKE
10 Featured	$2,990	$35,880	Part-time income, 1-2 days/week work
30 mixed (avg $400)	$12,000	$144,000	Quit day job, hire help
75 paying (50% market)	~$30,000	~$360,000	18-month dominant-player outcome

> **18-MONTH PICTURE**
>
> ~75 paying dispensaries + consumer revenue (newsletter sponsors, premium features, affiliate). **Total realistic 18-month potential: $400-500K ARR for a 1-2 person operation.**

7 Risks & Mitigations

RISK	LIKELIHOOD	MITIGATION
Weedmaps blocks scraper	Medium	Phase out for direct Dutchie/Jane scrapers
Big competitor enters MN	High	Move fast, lock dispensary relationships, brand equity is the moat
Dispensaries don't pay	Medium	Free tier forever + clear ROI dashboards = low resistance
MN market consolidates	Low	Same total dispensary count, just bigger players
Legal/compliance pressure	Low	We don't sell cannabis. Stay an information source.

8 What the CMO Owns

He owns

- **Press relationships + earned media** — every press play runs through him
- **Brand voice + messaging** — polishes outbound, Reddit posts, press releases
- **Strategic positioning + storytelling** — shapes the narrative

Don't delegate to him

- Outbound sales execution (cold email stays with founder)
- Tactical content writing (founder writes, CMO polishes)
- SEO (different discipline)
- Anything technical

> **CADENCE**
>
> Weekly 30-minute call. He owns press + brand voice. Founder owns everything else. Equity vs. paid is a separate conversation — settle up front.

9 The First Three Things

Start this week

1. **Finish the Kit welcome sequences.** Every signup is hitting a dead end. ~30 min of clicking in Kit to unblock every email capture on the site.
2. **Write the first cold outbound email** to one specific dispensary owner. Send it. See what happens.
3. **Make the first r/MNTrees post.** Don't sell. Share useful data and link to TCC at the end.

Three actions. Total time: 2 hours. That's the real start of the marketing plan.

Twin City Cannabis

Real prices, real reviews, every dispensary in the Minneapolis-Saint Paul metro. Free for shoppers, fair to dispensaries, honest to everyone.
